Application scope

If you are looking for a highly durable and long-lasting transfer solution for custom designs on various products, Mama'sDay UV DTF Transfer is the perfect solution for you. This product is available in white color and is compatible with UV printers. Here are some product application occasions and scenarios for the MODI MZ318 Mama'sDay UV DTF Transfer:

T-shirt Printing

Mama'sDay UV DTF Transfer is perfect for printing custom designs on t-shirts. Whether you are designing shirts for your business, a sports team, or for personal use, Mama'sDay UV DTF Transfer can help you create high-quality, long-lasting prints. You can use this transfer on various t-shirt sizes, including 16OZ, and more.

Bags and Accessories Printing

This transfer is also suitable for creating custom designs on bags and accessories. You can use it to print your designs on backpacks, tote bags, and other accessories. Mama'sDay UV DTF Transfer is compatible with different types of materials, including canvas, polyester, and more.

Mug Printing

With Mama's Day UV DTF Transfer, you can also create custom designs on mugs. This transfer is perfect for printing designs on ceramic and glass mugs. The transfer is highly durable and long-lasting, making it perfect for creating personalized gifts for your loved ones.

Customized Clothing

Mama's Day UV DTF Transfer is a great solution for creating customized clothing. You can use this transfer to add your own designs to shirts, pants, jackets, and other clothing items. The transfer is compatible with different fabrics, including cotton, polyester, and more.

Application Instructions

- 1.Clean glass with mild soap and water (alcohol NOT recommended)
- 2. Wrap decal around glass and trim any excess from the sides of the decal as necessary to fit your glass. Try to avoid overlapping the wrap when applied to the glass can.
- 3. Peel the clear backing off of decal
- 4.Line up the decal onto the glass can and apply the decal to the glass. Starting on one side, press the wrap down, working your way up and down on the glass. The adhesive is very strong; it cannot be removed once applied to the glass.
- 5. Using a squeegee or your fingers, rub the decal well to adhere it the glass and to work out any air bubbles. 6. Gently peel off the clear film

USAGE METHOD

Be careful not to stick it on the radians atboth ends It is easy to stick it not firmly

Apply heavy pressure

Peel clear film off the clear film

CARE INSTRUCTIONS

Hand wash only. We do not advise to put in dishwasher or microwave. We are not responsible for application mishaps. *Please note: Not all brands of tumblers have the exact same measurements. They can differ by a couple of millimeters. Our wraps have been measured to fit a straight tumbler. Adjustments may be necessary

DISCLAIMER

Cup featured in the images are NOT included.

We are not responsible for wraps being applied incorrectly or if being applied to an alternative brand cup. Please ensure you are confident and have researched the application process correctly before attempting.

Sizes of cups will vary by brand, all our DTF prints have been designed against our own cups, should you wish to apply to cups other than our own some small tweaking may be required.

Physical DTF image colours may vary vs our mock up this is due to difference screens and resolutions.

We do not accept returns or exchanges for DTF prints, each designs 'print run' is manually tested by us before listing to the store.

Company Profile
